Comments: Proposed Action

The White River National Forest would authorize a Forest Order to prohibit the possession of glass and dogs on the Wildwood parcel. It would also reinforce the parking requirements at the Wildwood put-in by prohibiting any parking in the Fire Lane.

I am in support of this. Above all things, (dogs, people, recreation, etc.) it is my opinion that we should consider nature first. I would like to see less human impact in and around the Nature preserve. I would also like to see more consistent enforcement of current rules/regulations.

Thanks for your consideration.
