Comments: SHT Reroute issues

To All Concerned: Please review/read Jo Swanson's 5/14 letter regarding the SHT reroute; these are significant issues for year-round recreation; Lutsen Mtn needs to fully accommodate a decent SHT re-route as specified/proposed in the original understanding north of Moose Mountain-please review and envision the problems created by the slap-dash proposal to squeeze the SHT between ski runs and snow-paks; a true northern wilds re-route north of Moose as originally proposed is the option we need
