Title:

Comments: I support Stillwater's request for an amendment to expand the East Boulder Mine tailings impoundment. Stillwater has always operated in an environmentally responsible manner and has gone above board in many cases.

The tailings storage expansion is essential to ongoing operations of this world-class mine which provides employment and economic support and gain to the local area and Montana as a whole.

The expansion is well-engineered, thoroughly vetted, and will provide years of safe, reliable, and environmentally sound tailings storage.

Sincerely,

Jerry Hanley
