Comments: Lutsen Mountains Ski Area Expansion Project

Hello,

I am writing to express my recommendation to allow for the expansion of Lutsen ski area. As both a resident of the state of Minnesota and a skier I favor this expansion. Adding to the skiable terrain of the area will expand its appeal to skiers in the region thereby adding to its revenues and the tax revenue for the state.

As someone concerned about the environment I see skiing as a relatively low impact activity with positive economic benefits.

Thank You,

Bill Proesch
