Comments: Fully oppose further development of Lutsen

Not only does Lutsen already pull water from Poplar River (inhibiting fish habitat and more), and not only does Superior Natl golf course pollute by using fertilizers etc.... now you want to let them clear new ski alleys in public land??

Not Okay. Lutsen Mountains is a hideaway for wealthy urban capitalists and planning to expand to serve people from well outside the local community is a mismanagement of the public trust. The botanical life around Lutsen is unique and will NOT be enhanced or preserved through this project. Please DENY these permits to further capitalize on fragile ecological landscapes.

Lutsen also brings in employees from far away to work for cheap... this plan to further utilize the public resource does NOT honor the local community or local workers. Please deny this expansion- it does not serve to the benefit of anyone except Lutsen Mountains Inc (or whatever they go by)
