Comments: Lutsen Mountains Ski Area Expansion Project

To Whom It May Concern,

I live in the Chicago Illinois area. We traveled to Lutsen to ski in the spring of 2019 with my two brothers and 3 children for a 4 day ski trip. I really enjoyed the skiing and the resort seemed to really safeguard the beautiful area and environment. However, the 8 ½ hour drive is too far for the variety and amount of terrain they have to keep us interested for 4 days and make the trip "worth it". Looking at the purposed plans, I think the increased terrain will make a four day trip a viable option that I would definitely do again over traveling to the Rocky Mountains as we planned to do in the spring of 2020.

To summarize I strongly support the expansion and would be eager to travel there if it is completed.

Thank You,

Michael O'Donnell
