Comments: Hello-

I can appreciate the idea of generating tax revenue from public lands, especially in this time of excessive tax spending.

However, I do NOT condone clearcut and broad-scale logging in the North Cascades. Our watershed and landscape are too dependent on clean water runoff/landslide prevention.

Consider this a taxpayer vote for a NO vote on new logging on public lands. There is plenty of logging on surrounding private lands and the landscape is better off unmolested.
