Title:

Comments: I would just like to comment that the North Fork of the Nooksack is--and should be treated as--a national treasure. This is an area of unparalleled beauty, and those of us who live in this area want to protect the forests and wildlife of this area for generations to come. I vehemently oppose any plans that would harm the environmental health of the North Fork of the Nooksack and the surrounding area. I want this area protected and preserved from any sort of economic exploitation.
