Comments: Please do not go forward with the North Fork vegetation management project. I am very, very worried about the scope of this project. The new logging roads that would be needed for the project alone would be detrimental to the ecosystem of the area, let alone the 1000's of logged acres that will have a negative impact on the salmon spawning grounds. As our lives have become so connected to technology it has become more imperative than ever that we have space in nature to decompress and destress. Please reconsider this ill-advised plan.
