Comments: Please do not ruin our beautiful Washington State landscape. We need trees to provide sanctuary for wildlife and to help offset the terrible devastation we're seeing from climate change. Why does humanity have to ruin the pristine beautiful of our landscape?! It's a tragedy, travesty, so unwarranted. In the face of extensive and ongoing clear-cutting operations on private and state timberlands nearby, the Forest Service must prioritize allowing our National Forest to mature naturally for carbon capture, clean water, sensitive wildlife habitat, and compatible recreation. Please, no clear cutting. Who benefits? INDUSTRY, that's who. Please, STOP!
