Comments: I know no safe depository of the ultimate powers of the society, but the people themselves: and if we think them not enlightened enough to exercise their controul with a wholesome discretion, the remedy is, not to take it from them, but to inform their discretion by education. this is the true corrective of abuses of constitutional power.

Let us form a more perfect Union.

No more leaders please, I'm good.

I'd like a say in how taxes are spent and policy implemented. I'd like all U.S. Citizens to have the right of self-determination too.

Representative Government breeds corruption. Always. Capitalist, Communist or Socialist, they all fall prey to the greed inherent in humanity. All of them. Every time.

The only reason we have a representative government is because the only form of long distance communication at the time was a horse or a boat.

How hard would it be to make an app with blockchain encryption that allows you and I equal say in how this country is run? No more politics. No more lobbyists. No more division. No more false flags and blood for oil. No more underfunded VA, schools, seniors, handicapped, after school programs, ect. ad infinitum.

How long have you been wishing, hoping for REAL change?
You hold the answer in the palm of your hand.

Of the People, By the People and For the People. Accept no substitute.
