Title:

Comments: Please do not allow the clear cutting of our natural forest resource to. This is unnecessary action. The consequences would far outweigh any of the preconceived short term benefits. Management of the forests does not need to include clear cutting. Jobs created by clear cutting are one season jobs. If MONEY is the only thing that talks, support sustainable forestry practices that will provide loggers continued jobs for decades. Loss of natural forest causes damage to wildlife, streams and humans, who rely on these woods for recreation and oxygen. Tourism in our corner of the U.S. is dependent on the beauty of our natural resources. Cafes, restaurants, AirBnB's & hotels need the revenue stream to keep afloat. Support a win-win alternative. Both sides matter.
