Comments: I oppose a massive expansion of logging in the North Fork Nooksack. The proposal is completely out of scale with what is typical in modern National Forests. At the very least a full EIS is warranted.

This is a hugely important area for recreation (which is of course a major local economic driver) and the logging impacts can be big on recreational activities. Tons of local businesses count on people driving up to Heliotrope Ridge TH and other nearby trailheads to camp, hike, and climb.

This is not something to be rushed into. I oppose this logging project!
