Comments: I strongly object to logging the North Fork Nooksack River and its tributaries just off the Mount Baker Scenic Byway.

WHY? SUSTAINABILITY. For over 100 years we have "harvested" old growth ... because it is easy and cheap but with little consideration of sustainability. As a result, in Washington State only a small fraction of our old growth remains. Clearly we should not allow any old growth "harvesting" anywhere. We should only allow harvesting on land that has been replanted and the "new growth" has matured.
