Comments: RE: North Fork Nooksack Vegetation Mgmt Project 58218

Mt. Baker-Snoqualmie Forest land is our playground in Bellingham.

NO, it is not ok to destroy it via logging! The ecosystem should be left intact for wildlife. The destruction brought by logging goes much further than the loss of trees. It pollutes water, and ruins habitat for all kinds of wildlife.

Why should some logging corporation be allowed to destroy this habitat so that a few greedy people get rich?!
