Comments:

I strongly oppose the requested special use permit (SUP) and related Categorical Exclusion (CE) for geotechnical investigations in connection with Homestake Partners' proposed transmountain diversion of water from Homestake Creek in the Holy Cross Wilderness for the Whitney Reservoir project.

The work to be done under the proposed SUP/CE would cause significant damage to an ecologically unique and sensitive area and the reservoir would require making a Wilderness boundary "adjustment" to reduce the Holy Cross Wilderness by almost 500 acres. I oppose reduction of any federal Wilderness Areas, particularly the unique Holy Cross Wilderness which is already being dewatered by the Homestake Partners.

I am deeply concerned about the Whitney Reservoir project's impact on the environment and the complex fen wetlands. These wetlands are some of the finest of their type in the entire White River National Forest. Reclamation and restoration of complex fen wetlands has not been proven to be possible.

The communities of Aurora and Colorado Springs should take action to reduce their water needs, and not destroy our Wilderness.
