Title:
Comments: This request should be firmly and absolutely denied. Both of these cities have made zero effort to contain their sprawl despite being warned by water experts and other municipalities that the water does not exist for their ambitious unchecked development. Now they are reaching the point where they need to try to steal it from our wilderness area. No. Not now, not ever, never should any entity be allowed to explore these areas for their own profit. They have been set aside for the people and for nature and thus it should remain.
