Title:

Comments: I strongly object to this proposed harmful intent to diminish wilderness, diminish water flow in the Colorado and do further harm to natural areas with road building and intrusive acts against that natural environment. This should not proceed with no environmental accounting of the impact. I am opposed to any development of a reservoir in or near the Holy Cross Wilderness. I strongly object to any proposed reduction of that wilderness. I oppose both the special use permit and the Categorical Exclusion proposal. Please, in this critical time, prioritize preservation rather than exploitation of our natural lands.
