Comments: The communities of Aurora and Colorado Springs should take action to reduce their water needs, and not destroy our Wilderness and rivers.

Diverting even more water out of the headwaters of the Colorado River is a terrible idea.

The proposed work also is a critical step in advancing the Whitney Reservoir project, which would require making a Wilderness boundary "adjustment" to reduce the Holy Cross Wilderness by almost 500 acres. I oppose reduction of any federal Wilderness Areas, and especially the unique Holy Cross Wilderness which is already being dewatered by the Homestake Partners
