Title:

Comments: I strongly oppose the requested special use permit (SUP) and related Categorical Exclusion (CE) for geotechnical investigations in connection with Homestake Partners' proposed transmountain diversion of water from Homestake Creek in the Holy Cross Wilderness for the Whitney Reservoir project.

The requested SUP/CE would allow for up to a year of drilling, road construction, and cross-country travel by vehicles and equipment within the White River National Forest in support of the proposed reservoir and diversion project.

The proposed work also is a critical step in advancing the Whitney Reservoir project, which would require making a Wilderness boundary "adjustment" to reduce the Holy Cross Wilderness by almost 500 acres. I oppose reduction of any federal Wilderness Areas, and especially the unique Holy Cross Wilderness which is already being dewatered by the Homestake Partners.

Though I live in California, I am deeply concerned with the over-exploitation of the Colorado River, the lifeline of the southwestern United States. Everything possible should be done to keep it flowing.

The communities of Aurora and Colorado Springs should take action to reduce their water needs, and not destroy our Wilderness and rivers.
