Comments: Here we go again! Disallow building a dam in and near the Holy Cross Wilderness Area that would further drain the headwaters of the Colorado River.

You didn't listen to us or to Congressman Neguse's opposition the last time around.

NO to the Whitney Reservoir! NO drilling test holes! NO new roads! DO NOT take any of the Holy Cross Wilderness! And NO to 10 billion gallons of water/year from the Colorado River!

I OPPOSE both the SUP/CE and the underlying proposed Whitney Reservoir project.

I am deeply concerned about the Whitney Reservoir project's impact on the environment and the complex fen wetlands. These wetlands are some of the finest of their type in the entire White River National Forest. Reclamation and restoration of complex fen wetlands has not been proven possible.

Make the communities of aurora and Colorado Springs reduce their water needs and DO NOT DESTROY OUR WILDERNESS AND RIVERS!
