Comments: TREES MATTER? duh... if you want clean air and water. We are destroying this planet over GREEEEEEEEED!!!!!!! YOU CAN'T EAT YOUR TESLA EITHER...trees are the lungs of the planet but just keep watching more crappy news that will make you feel even less better. Go for a walk out in nature shut off your stupid fart phone and pay attention to what is around you and say hello. Trees clean the air they are ecosystems they are your life. Scientist say we have less then 30 years before the planet is unlivable. OVERPOPULATION AND GREED IS KILLING THE PLANET. YOUR AIR AND WATER COMES FOR FREE FROM NATURE BUT CORPORATIONS WOULD LOVE TO BOTTLE IT IN PLASTIC AND SELL IT TO YOU EARTH DOESN'T BELONG TO ANYONE IT IS FOR EVERYONE PLEASE RESPECT WHAT IS LEFT WE NEED OUR NATURAL ENVIRONMENT TO SURVIVE.
