Comments: It would be a shame and a disaster to destroy portions of this wilderness area for the benefit of serving the growth of people who live in the city. We have already destroyed so many of our natural beautiful landscape for greedy human causes. The Holy Cross Wilderness is a magical place and many locals love to enjoy its natural splendor, not to mention the trickle down effect this project will have on the integrity of our Colorado River and its tributaries. Please do not approve this project! It would be a sad thing to watch the ecosystem die as a consequence of this horrible action.
