Title:
Comments: Thank you for allowing the public to comment on this decision.

I urge you to look for other means to supply the front ranges' consumption of water. Homestake is such an amazing and beautiful area. It provides the public with numerous recreation and outdoor activities. Covid19 has really shown a light on how important and limited these free and safe areas are for the public. The wildlife that rely on the wetlands is substantial and it is an important part of the ecosystem. I'm not a scientist just a nature enthusiast, but I have fallen in love with Homestack and all my memories of the area. Please don't destroy one of my favorite places in the world.

Thank you for your time.
