Comments: I do not want another reservoir built in the Holy Cross Wilderness. This is a beautiful place that i continue to explore, as to relish in its beauty. Bring in major equipment would permanently destroy parts of the ecosystem, disrupt wildlife and create access issues for people trying to enjoy this amazing place. I personally will try and get as many of my neighbors to write in to denounce this proposal. Please, with everything I love, DO NOT build this damn in the Holy Cross Wilderness. There are too many dams as is and our water is too important for recreational use. Fishing, rafting/kayaking are the things people forget about that are effected directly once water levels drop, just so more people can water their grass when we live in a high desert environment. Thank-you for your time and I hope this message finds you well. With Love.
