Comments: North Fork Nooksack Vegetation Management Project #58218

Having grown up in Whatcom County and spent my childhood hiking and skiing in the shadows of Mt. Baker, the surrounding forest have a special place in my heart. There is no better mountain scenery in the lower 48 than that found in the North Cascades and I strongly believe these forests must be protected for future generations. In addition, Puget Sound is in trouble. Salmon counts are crashing, and we must do everythng possible to protect the rivers flowing into Puget Sound. Logging the headwaters of the Nooksack is just wrong!
