Comments: Greetings,

Please include me within the group that believes that drilling in or around the Holy Cross Wilderness Area with the intent to build another dam project is a terrible mistake. It was my understanding that the Homestake 2 projects large opposition eliminated any more threats like this but apparently I was incorrect. Just when the local news couldn't get any worse, this pops up. I spend the majority of my leisure time hiking, skiing, and exploring this magical area. Please do not ruin what little we have left. Thank you, Dan Nielsen
