Comments: Greetings,

I am against the U.S. Forests Service proposal to log the North Folk Nooksack and its tributaries. Turn this rare, beautiful green land into a pulp farm? No way! This proposed action must absolutely be struck down. I will be sharing and speaking against this far and wide. I'm dismayed by this idea and that it was even considered in the first place. Nothing can replace the majestic beauty of these forests, streams and wild life.

I urge you to reconsider and abandon this proposal.

Sincerely,

Nicole K. Kincaid
