Comments: How many years will this go on. Leave Wolf Creek alone. It was an illegal trade in the first place with Bush I.

I saw the Lynx they had before they let them go years and years ago. Now you want to destroy their habitat.

Too many terrible things are done for MONEY AND POLITICS. It is shameful. I am sure the FS people I met

in the begging at meetings are retired now. So why why why does this keep going on and on and on.
