Comments: I am a passholding skier at Purgatory - and it is fun! The mountains are so well developed that the experience of being up there for the day is delightful!

But the proposed development at Purgatory MUST NOT HAPPEN. There are too few lynxes in the world and to destroy their habitat for recreational use - for OUR pleasure - is UNCONSCIONABLE! We do not need more runs on the mountain. We need a liveable world where ALL creatures can be at home. Develop in areas where lynx will not be affected, if you must develop at all.

PLEASE do not follow through with the plans to destroy lynx habitat.
