First name: Linda

Last name: Bunk

Organization:

Title:

Comments: Please take time to examine this request carefully; ask Purgatory to look to other areas for development, analyze lynx activity in this area, and analyze greenhouse gas emissions from said development. We have had passes at Purg since moving here in 1989 and would rather take care of our environment that see expansion at Purg.

If anything encourage uphill skiing before, during and after ski season.

Thank you, Linda and Ron Bunk
