Title:

Comments: My husband and I live in Durango and have skied at Purgatory Ski Resort for years. However we are very concerned that the resort plans to expand its developement without regard to the surrounding forest. We strongly urge the Forest Service to slow the environmental analysis process to:

Allow consideration of possible ski run development in areas not destructive to lynx and trout habitat

Wait for Fish and Wildlife's analysis on lynx activity and habitat in the Purgatory area

Require Purgatory to undertake a thorough greenhouse gas/carbon footprint analysis of any development schemes.

Thank you for your time and attention. Joan and Phil May
