Comments: Central Oregon firefighters already put out 100 human-caused wildfires this year

By: By MICHAEL KOHN

The Bulletin

Description: A wildfire near Bessie Butte southeast of Bend was fully contained as of Wednesday night, but was one of dozens of human-caused fires that have flared up this fire season.

MESSAGE FOR HOLLY JEWKES

Many open fires across from Widgi Creek in prior years. The campers ignore no fire signs in this undeveloped camping area. The campers ignore double yellow lines and cross the highway illegally

You don't have the resources to manage this area. There will be limited fire fighting resources.

Shut this area down to rogue campers.

Thank You!
