Comments: To Whom it may Concern,

The lynx introduction has been hugely successful and the program will be significantly impacted by an expansion into IceCreek. There needs to be a due process, with all appropriate agencies involved in the decision making.

As a winter enthusiast at Purgatory and a long time season pass holder, I have seen the sustainability report card and am unhappy that James Coleman has not improved the stewardship of our forest. The forest service is continually working against the will of the citizens and needs to be reigned in.
