First name: Michael

Last name: French

Organization: La Plata Economic Development Alliance

Title: Executive Director

Comments: The Alliance would like to lend our support for development of the Ice Creek Pod project under the existing special use permit. The Purgatory Resort is an economic driver for our area and this expansion would enable greater use and continue to grow operations and jobs as well as attract a desired demographic to our area. The project would also assist in dispersing patrons to other areas which helps in peak season and allow for a higher elevation of beginner terrain. Assuming that the environmental assessment will determine no significant impact, we fully support this project.
