First name: Mike

Last name: Hyde

Organization: Duchesne County

Title: Community Development Director

Comments: Duchesne County, Utah is in support of the proposed directives associated with the storage and use of explosives and magazine security. We recognize that explosives, which are used, stored and accounted for in accordance with the proposals, is a necessary tool to have available for a variety of uses on the forest, including avalanche control, tree and rock removal, road construction and maintenance and other projects. We have no objection to the text of the directives being proposed and hope that explosives continue to be a tool available to authorized personnel working on the forest.
