First name: Teanna

Last name: Limpy

Organization: Northern Cheyenne Tribe

Title: THPO

Comments: The commitment of the Forest Service to protection of Historic Properties under the NHPA, and more specifically possible TCP's, could be further explained as to how this project will mandate consultation with the SHPO and THPO offices when project activities may affect cultural resources. The paragraph explains that the agency will ensure that guidelines are followed, but I think the agency can provide a greater substance of what exactly the NHPA will do should the need for consultation be required.
