Comments: Dear Forest Service Representatives:

My husband and I are homeowners in the Widgi Creek neighborhood situated along the Cascade Lakes Highway Scenic Views Corridor. We are writing to urge the Forest Service to implement the proposed Camping and Campfires Forest Order which would prohibit camping and campfires along said Corridor. We have noticed a substantial increase in campers along SW Century Drive, particularly across from the Widgi Creek Golf Course. In addition to the campsites being unsightly and the occasional sound of gunfire with its inherent dangers, we have witnessed campers utilizing the golf course restrooms and illegally fishing in its ponds. More importantly, the campfires stoked at night could trigger a devastating forest fire threatening the Widgi Creek/Elkai Woods and neighboring housing developments up to the Seventh Mountain Inn resort. Please protect the Cascade Lakes Highway Scenic Views Corridor, our valuable forest resources including wildlife, homeowner safety and values, and the beauty of our surroundings: implement the new Forest Order.

Sincerely,

Ingrid and Jay Brewer
