Comments: Hello Holly,

Thank you for sending out the draft EA concerning our local caves. I am appreciative of the work done on this project. My comments are minimal, but suggest:

1. Naming spray paint as an illegal substance to be used in a cave
2. Outline the appropriateness of sand blasting for authorized entities (OHDG, Wanderlust Tours, other?) specifically for the removal of graffiti in caves.
3. The 200' barrier for prohibited activities is a positive move
4. Perhaps outlining the federal penalties for these illegal behaviors in and around the caves

Thanks again for your work on this project.

Yours,

Dave Nissen
