Comments: Here are some additional comments regarding the Camping on Century Drive. The quote below is from the National Forest Service and printed on KTVU's web site this morning, July 10.

"Increased use of the Three Sisters, Mount Washington and Mount Jefferson wilderness areas have led to trail degradation, more trash, human waste and illegal campfires in the past".

This is exactly the same situation on Century Drive. Over the Fourth of July holiday I observed campers riding 4 wheel ATV's and motorcycles on the dirt hiking paths across from Widgi Creek Golf course. Talk about trail degradation, along with vehicle noise and making it unsafe for hikers and non motorized bikers.

Regards,

Stephen Lindeman
