Last name: Kennell

Organization:

Title:

Comments: I am writing to express my very real concerns regarding the assortment of folks "camping" along Century Drive, just beyond the bike path, & across the highway from Widgi Creek - where we live in a townhome. Specifically:

1) the prospect of WILDFIRES. Often I see BIG open campfires: a VERY possible, & SERIOUS threat...

2) SANITATION - or lack thereof. UNHEALTHY - &, to say the least, gross...

3) LESSENERED USE of bike PATH: I, myself, plus many folks from town, as well as out here, feel so UNCOMFORTABLE (ie, unsafe?) riding through the "campers" to get to trails, as well as riding past on the paved trail, that the area is avoided, rather than enjoyed... A shame, after spending all the time and money to build it[hellip]

4) UNSIGHTLY; certainly does not uphold designation nor expectation of a SCENIC(?) Corridor[hellip]

5) GOVERNMENT/AGENCY LIABILITY: By allowing these unregulated campers, it would seem that the agency in charge risks RESPONSIBILITY for potential fire-caused deaths, health problems caused by trash & human waste, underuse of a public paved trail, and potential harm to those who encounter various squatters there.

Thank you overmuch for considering my input. I am hoping that decisions made by your department will settle this problem promptly, thus avoiding the potential for future, escalating issues.
