First name: MARY

Last name: ROJESKI

Organization:

Title:

Comments:

"The forest to adopt the most protective provisions for wildlife and habitat in Alternative D, and enforceable standards instead of weak desired conditions."

"support of the Regional Forester listing American bison as a Species of Conservation Concern, and having the Forest Supervisor adopt strong enforceable standards to benefit the migratory giants and connectivity to their habitat on our National Forests."

I agree with the above statements! Do the Right thing by allowing the bison to migrate as they should. This is Federal land Not owned by the Cattlemen Assoc!! Are you owned by them??? Mary Rojascki
