Title:

Comments: Forest Supervisor Mary C. Erickson failed to include enforceable standards for migratory bison and their habitat, and Regional Forester Leanne M. Marten failed to list American bison as a Species of Conservation Concern in Region One.

The forest's preferred Alternative F is weak and objectionable on several grounds. For example, the forest continues to define natural migrations based on "management zones" that exclude bison from National Forest habitat.

Please adopt the most protective provisions for wildlife and habitat in Alternative D, and enforceable standards instead of weak desired conditions

RESPECT and REVERE the SPIRIT of all who were enjoying life here for thousands of years prior to the arrival of the disease spreading and murderous thieves beginning in 1492. We must restore NATURE and allow her to take therein again. Ban Cattle and Dairy cows from these lands.
