Comments: To Whom It May Concern:

I have reviewed the Camping and Campfires Forest Order Draft Environmental Assessment and I am in full support of the proposal by the Deschutes National Forest to impose prohibition of:

- Camping, and

- Maintaining, attending, or using a fire or campfire outside of the developed day use areas within the Cascade Lakes Highway Scenic Views Corridor and the Deschutes Wild and Scenic River Corridor. The action will go far to preserve these two valuable scenic corridors.

Thank you for your good work on this important effort!

Joy McBride
