Comments: I am writing to object for failing to include enforceable standards for migratory bison and their habitat, and Regional Forester Leanne M. Marten for failing to list American bison as a Species of Conservation Concern in Region One.

The forest's preferred Alternative F is weak and objectionable on several grounds. For example, the forest continues to define natural migrations based on "management zones" that exclude bison from National Forest habitat. .

Please adopt the most protective provisions for wildlife and habitat in Alternative D, and enforceable standards instead of weak desired conditions.

Thank you.
