The bison is an American treasure it is your patriotic duty to save them for future generations.

I strongly object with Forest Supervisor Mary C. Erickson for failing to include enforceable standards for migratory bison and their habitat, and Regional Forester Leanne M. Marten for failing to list American bison as a Species of Conservation Concern in Region One.

The forest's preferred Alternative F is weak and objectionable on several grounds. For example, the forest continues to define natural migrations based on "management zones" that exclude bison from National Forest habitat. (More details will be forthcoming in our next alert).

Please continue to push the forest to adopt the most protective provisions for wildlife and habitat in Alternative D, and enforceable standards instead of weak desired conditions. The bison is an American treasure it is your patriotic duty to save them for future generations - thank you
