Comments: I applaud the decision to create the Grandview Recreation Area in the Big Snowies which will allow continued mountain bicycle access in that area. However, the closing of the top of the Snowies to bicycles is unacceptable. Bicyclists have been riding the trail that traverses the crest of the Snowies for over 30 years with no issues. Mountain biking is a quiet, human powered activity which does not detract from the wilderness character of an area. I would request that a corridor be added to the Grandview Recreation Area that follows the existing trail on the crest of the Snowies running along Knife Blade Ridge and terminating at the east end of Half Moon Canyon.
