Title:

Comments: I live in Lewistown and hike the Snowy Mountains often. I would like to see the Neal Creek Trail #654 included in the revised forest plan. Also, Blake Trail#655, Timber Creek Trail#676, Crystal Cascades Trail#445 and 445a, Crystal Lake to the Ice Caves #493 and Crystal Lake to West Peak#403 and#490.

The Snowy Range is a pristine area and should be protected. People come from Billings Great Falls, Missoula and beyond to hike here. This summer the campground at Crystal Lake is full almost every weekend and people would like to see the area protected. Don't portion off part of this area so it no longer qualifies for wilderness.

This entire area needs to become permanent wilderness.

Thankyou
