Comments: I am a supporter of many environmental causes and have been an avid caver for over ten years and see no benefits to eliminating access to caves. Most of the caves do not support the bat population in the area and the order will have no positive effect on bat habitat. Additionally, the NSS and local cave grottos have already adopted strict measures to safeguard bats from the spread of White Nose Syndrome as well as measures designed to prevent disturbing them during their hibernation season. As a taxpayer and conscientious lover of the outdoors I am asking you to support the OHDG's plan.

Thank you

Paul Smith
