Comments: I just wanted to drop a note in support of this project. Our family travels to the Tillman/Stokesville trails 10-12 times a year and very much appreciate the trail system there. This project would make it even better. The idea of connecting, in a sustainable way, the Wolf trail to the Narrowback trail would really be helpful. Sometimes, we'll ride one, then have to drive to the other - but this would eliminate that entirely. I hope the project moves forward and appreciate your consideration.
